

Open position – Marketing

Videography

YOUR DEPARTMENT

We are responsible for accompanying and preparing all of the club's exciting and innovative stories in the media. We are always in contact with the technical departments of the club and our sponsors. In order to tell our vision as interestingly as possible, very good teamwork and a joint elaboration of ideas, strategies and drafts in the weekly meetings is necessary. At the same time, each department member has his or her own area of expertise. In addition to the specific areas of responsibility, the planning of the vehicle presentation of the Sonnenwagen is one of the biggest departmental tasks.

YOUR DEPARTMENT

As a videographer, you not only film and edit videos for YouTube, e.g. in the form of vlogs, but also film video sequences in return for our partners.

In addition, you take care of the organisation and support of external producers.

So you always work closely with partners and team members to produce the videos. You can always bring in new ideas and projects.

Your job will be very varied and you will gain insight into every area of the company. Like everyone else, you will also help with the manufacturing of the new solar car.

WHAT YOU BRING TO THE TEAM

- Enthusiasm for the project!
- Experience in videography and video editing is advantageous
- Confident handling of Adobe Premiere Pro, After Effects, DaVinci Resolve or similar
- Independent working method and potential awareness
- Enjoy working in a highly motivated, creative team

WHAT WE OFFER YOU

- Development of one of the world's most efficient solar vehicles
- Opportunity to apply your theoretical knowledge in practice and implement your own ideas in an exciting environment
- Developing of your soft skills and project management skills
- Contact to potential employers and the development of a professional network (in industry and research)
- THE experience of your studies!
