

## Open position – Sponsoring

*Treasurer and Head of Sponsoring*

### YOUR DEPARTMENT

Our department lays the foundation stone for the new Sonnenwagen! We are responsible for the acquisition of sponsors, the negotiation and drafting of contracts as well as the cooperation with our partners. As part of our partnerships, we coordinate joint events such as trade fair appearances and actively maintain contact with our partners so that they are as involved as possible in the "Sonnenwagen" story.

### YOUR TASK

The sponsoring department communicates a lot with the other departments and acquires and looks after our numerous partners. It's easy to lose track of everything and things get forgotten. To make sure this doesn't happen, as head of the department you are responsible for keeping an eye on everything and also look after our main sponsor. Furthermore, as treasurer of the association, you are a member of the board. As treasurer, you will be responsible for the budget planning of the association, invoicing partners, paying bills for materials and taking care of the financial accounting of the association. Before the new 2025 Sonnenwagen leaves for Australia, you will take care of the logistics to Australia together with the rest of the board - this is one of the most important tasks for a successful World Solar Challenge 2025!

### WHAT YOU BRING TO THE TEAM

- Student at the RWTH or FH Aachen
- Enjoy communication and social contact with partners
- Interest in finance, accounting and business administration
- Willingness to take responsibility for the club
- Finding solutions, even in situations that initially seem unsolvable
- High degree of personal responsibility
- Enjoy working with team members from different departments as well as the representation of the club to the outside world

### WHAT WE OFFER YOU

- Development of one of the most efficient solar cars in the world
- Opportunity to apply your theoretical knowledge in practice and implement your own ideas in an exciting environment
- Contact to potential employers and the development of a professional network (in industry and research)
- THE experience of your studies!

### APPLICATION

Please apply exclusively via the application form on our website:
